

My state of PA is violating one of the TRS regulations and I request that plans for correcting this violation be submitted before TRS recertification is granted for this state's TRS. PA is failing to include STS in its TRS Outreach and Education Projects. They are even failing to do outreach in the deaf and hard of hearing and deaf-blind communities, in compliance with 47 C.F.R. § 64.604.

Callers are grossly unaware of the TRS and efforts to educate the public about TRS should extend to all segments of the public, including individuals who are hard of hearing, speech disabled, and senior citizens as well as members of the general population.

In closing, I want you to be aware that while outreach proposals have been made to PUC and that the surcharge may increase in July to cover possible marketing costs, no reports on PUC's response to the proposed outreach have been made. The person who acts as the liason between the PUC and the PA TRS Advisory Board has consistently failed to attend the quarterly PA TRS Advisory Board meeting or at least to send updates or reports on the status of the proposal.
